No.A4-504/47-48. OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,
Bangalore, dated 30th August 1947.

SUBJECT.- Un-official file - calling for opinion - re: the making over the local cess recovered on lands lying within Municipal Limits - resolution of the Mysore City Municipality - U.N.No.40/46-47.

Returned with compliments.

In accordance with the principles and objects laid down for the levy of local cess, in paragraph 319 of the Mysore Revenue Manual Volume I, the realisations are utilised for the benefit of the rural people as noted in the margin.

1. Construction of and repair of roads. 2. Educational purposes. 3. Such other local objects as may be deemed necessary from time to time.	According to the

instructions laid down in Article 250 Mysore Civil Account Code Volume I only 76% of the realisations is credited to the District Funds while the balance of 24% is credited to Education.

Although on principle there is some force in the Mysore City Municipality claiming the local cess collected on agricultural lands within its jurisdiction, yet it is opposed to the practice followed hitherto.

Next, the amount of local cess that could be got in the way proposed as above, would neither be considerable nor constant as agricultural lands round about the City Municipalities are either acquired or appropriated almost every year for non-agricultural purposes. ie , for the formation of extensions and building sites as the extension schemes of the City are pushed through. In that case, this would not be a sure source of income to the Municipality. Moreover, the amount the Municipality can expect to get in the form of local cess on agricultural lands within its area, is out of all proportion to the expenditure required over the special extensions like Kumbarakoppal in Mysore City.

The maximum assessment on the lands within the Mysore City limits may not exceed Rs.3,000/- and the local cess derived therein will be only about Rs.187/8/-. The amount that goes to the District Board is only about Rs.150/- calculated at 76%

Thirdly, the grant of this concession to the Mysore City Municipality will encourage other town and minor municipalities and Sanitory Boards to put forth their claims for a similar concession. The claims of the village Panchayets also cannot if preferred, be rejected on the same principle.

Fourthly, though the transfer of the cess realisations to the local bodies (other than District Boards) - will not materially help those bodies in augmenting their income, there will be un-

unnecessary complications in the accounts both in the Treasury and Comptroller's Office.

15 While, the advantages expected to be obtained willnot be proportionate to the labour involved in the re-distribution of the cess realisations, the claim of the Mysore City Municipality will create inconvenient precedents.

16 For the foregoing reasons, I am not in favour of conceding the request of the Mysore City Municipality.

17) The Secretariat collections are returned herewith.

S. Vaidyanathan

REVENUE COMMISSIONER.

18

18) The Kumbarakoppal village, which is situated within the municipal limits of the Mysore is seen to be in a very primitive condition and it would take much time and money to effect even primary improvements, such as roads, drains, light water havatories etc

19) As the income from this village is about Rs 600- per annum, it is reported that the Mysore city Municipality is not in a position to take up major improvements,

without a substantial grant from the Government

20 With a view to improving the condition of such villages, the Mysore City Municipal Council has requested the Govt to make over the local cess recovered on lands lying within the Mysore City Municipal limits, to the City Municipality

21) It is reported that a sum of about Rs 187-8-0- per annum is being collected on the lands within the Mysore City Municipal limits out of this amount about Rs 150-0-0 representing 76% is credited to the District Board Fund

22 The Revenue Commissioner is not in favour of transferring the cess collected to the Mysore City Municipality as this would

357
MM

Create an inconvenient precedent, and as the realisation is out of all proportion to the expenditure incurred over the special relaxations like Kunvaralcoppal in Mysore city

2) In these circumstances, it is for consideration if the Revenue Dept may be requested to examine the possibility of giving a grant out of R D grant, for improving the Kunvaralcoppal village in case it is decided to take out this village from the jurisdiction of the Mysore city Municipality

2) Refer para 1) supra. Attention of the Minister for public works is invited to the fact that in the light of the grants proposed by the Revenue Department the question of giving a suitable grant out of R D funds for the improvement of the village is for consideration

Revenue Department,
Bangalore.

Sir,

I have the honour to state that as per instructions of the Minister for Public Works and Rural Development, I inspected Kumbarakoppal village this morning (-5-3-1947) with the Sectional Officers, viz., Health Officer, Municipal Engineer, Revenue Officer and the Trust Board Engineer Detailed inspection of the village was made. The village is very primitive and will take much time and money to effect even primary improvements, such as, roads, drains, light, water, lavatories etc. I have, however, made arrangements for the general sanitation of the village, for improvement of the roads to the extent possible, for providing soak-pits to divert sewage water from the roads and for providing bore-hole latrines As there was difficulty for drinking water the existing wells are being improved at some cost by the Municipality As the income from the village is about Rs 600/- only per year, it is not possible for the Municipality to take up major improvements without a substantical grant from the Government. As there are several other villages of similar nature which have been brought within the jurisdiction of the Municipality, I have arranged for a survey of these villages, preparation of plans and programme of improvement works Estimates for these works will also be prepared and after placing the same before the Council and the Board, they will be submitted to Government for sanctioning necessary funds. The Minister for Pubbic Works and Rural Development was pleased to tell me that he would see his way to provide funds from the grants for Rural Development

In the meanwhile, I have made arrangements keeping these several villages clean with the existing sanitary staff and have instructed the Health Officer and the Municipal Engineer to visit these villages frequently and to submit fortnightly reports to me as to the state of the villages. I have also arranged for Saturday Gang work in these villages once a month to provide for intensive cleaning.

I have the honour to be,

Sir,

Your most obedient servant,

Sd.R.Ramachandra Rao Bhombore.

To

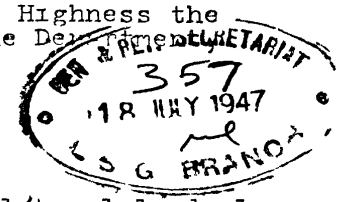
Syed Abdul Aleem, Esq , B A ,
Secretary to the Government of His Highness the
Maharaja of Mysore, Revenue Department
Bangalore



Sir,

Subject - Local cess recovered on agricultural lands lying within Municipal limits.

In inviting kind reference to my letter No P C 3150/7-3-47 (adverted to in your reply No L 13108 dated 27-3-47), I have the honour to state that the question of providing facilities to the newly formed extensions as well as the old area was a subject of detailed examination of the Council at the time of budget meeting held on 10th June 1947 As already explained in my letter referred to above, the income derived from the villages and newly formed extensions is too small when compared with the expenditure that has to be ~~derived~~ incurred there and unless it is supplemented by additional funds it would be very difficult to meet the needs The Council who examined the ways and means of supplementing the present revenue found that if the local cess levied on agricultural lands within Municipal limits, is made over to the Municipality by Government, it would go a good way in meeting the requirements

Accordingly they resolved that Government be requested to pay, to this Municipal Council, the local cess collected on all items of land Revenue levied on agricultural lands situated within Municipal limits

In enclosing copy of the resolution of the Municipal Council in this behalf I request you kindly to obtain orders of Government ~~in this behalf~~.

It would not be out of place to add in this connection that there should be surplus funds at the credit of the village panchayets in respect of the villages which have been included within the limits of

Examined by

to making over the local
cess recovered on lands lying
within the City Municipal limits
to the Municipal Council & am
directed to state that the resolution
of the Municipal Council does not
commend itself to the Government.

As the Kumbara Koppal Village
is a part of the Mysore City it
is the obligatory duty of the Municipality
to effect necessary improvements in
the locality and to make the
required Sanitary arrangements in
the area, meeting the required expenditure out of its funds
Necessary further action may
accordingly be taken in the matter.
